About the Author

A. K. Singh

Dr. A K Singh did his M.Sc. in Physics with specialization in Electronics from Agra University, Agra. He was awarded his Ph.D. in Applied Nuclear Physics - 'Uranium and Radon Studies using Track Etch Detectors' in 1999 from Aligarh Muslim University, Aligarh. He has also undergone UNESCO sponsored professional training on 'Fiber Optics' organized by IIT, Kharagpur. He has served research papers and chapters published to his credit.

K. K. Singh

Dr. K. K. Singh did his B. Sc. (Ag) Hons. M.Sc. (Ag.) in Agricultural Chemistry and Soil Science from Agra university, Agra and M. Phil and Ph.D. in Applied Chemistry from A.M.U, Aligarh. He qualified National Eligibility Test- Soil Chemistry/ Fertility and Microbiology in 1995 and NET-1997 in Soil Science- Soil Physics/Soil & Water Conservation. He joined the Department of Agriculture, Govt. of Rajasthan in 1993 as Asst. Argil. Research Officer (Chem.) and presently working at Project Directorate (Research) Agricultural and Soil Survey, Krishi Bhavan, Bikaner.

Product Description

Natural Disasters have always been the underlying factor that uproots or shapes human civilizations. Currently, on account of the high population growth and the consequent urbanisation, the impact of these phenomena is more intrinsically felt. While flood and drought are the most common occurrences, landslides triggered by natural causes such as substantial rainfalls, cloudbursts, earthquakes and volcanoes, gravely impact the human settlements. Hence this book aims at providing a gist of current and relevant information to help counter the adverse effects of such horrendous phenomena through a comprehensive overview of the disaster-related problems that mankind faces today.
